

Result-Oriented Services for Buyers

According to The National Association of Purchasing Management, the average cost associated with generating a purchase order is \$150. A typical international trade incurs more than \$1,500 cost on filing paper works for different service providers and government agencies. These excessive cost figures indicate the inefficiency of the process. Elimination of the inefficiency will result in substantial cost savings and increased profits for each trade.

Start with Sourcing

Sourcing is a vital key to more profits. Our site contains a vast database of thousands of product listings, complete with descriptions, specifications, and color photos. **Offer Posting** is another tool expanding the exposure of your buy offer among the sellers. Buyers can also view thousands of offers to sell from the suppliers. If the product is hard to find, our professional sourcing representatives can assist you offline. **Power Match** enables you to select from a pre-screened, matched list of suppliers and products according to your buy offer specification. **The Product Sampling** service helps ensure your satisfaction with the quality of the products you purchase. CHINAnUSA.com aims to build successful, permanent partnership between buyers and sellers. All sellers are screened through our **Seller Qualification** process. We empower our users to trade successfully with knowledge and confidence. **Trade Show Sourcing** is a great way to find products that meet your buying needs. CHINAnUSA.com offers professional sourcing support at various trade shows. Our goal is to help you source and purchase goods that meet your stringent requirement.

Secure with Payment and Financial Services

Credit Service equips buyers with the necessary leverage needed to increase buying power. **Letters of Credit** qualify you as a buyer, thus allowing you to secure and maintain sound

procurement management. **Open Accounts** allow a simple way to manage purchase orders while strengthening buyer-seller relations. We contact buyers with leading financial institutions to suit their financial needs. **Short & Long Term Loans** add to buyers' financing flexibility. Whether you open a line of credit or decide to finance the transaction, our customer service representatives work together with you to maximize your buying power. Our financial services connect product sourcing to order placement, thus creating a smooth and seamless transition.

Complete with Shipping

Door-to-Door Logistics finalize the trade transaction through an extensive network of shipping services. We provide timely and reliable shipping service solutions with online freight tracking. **Quality Assurance** helps to avoid any negative surprise by pre-examining the merchandise before they are shipped. **Insurance** offers an extra measure of protection to ease any anxieties. Shipping and logistics entail countless details and variances, the likes of which can easily consume enormous time and effort. Consolidation is the key to efficiency. Our shipping services handle the various aspects of logistics, allowing direct, hassle-free delivery straight to your door.
